Welcome to the final newsletter for Term 3 2015.

We have had a busy term with many great learning experiences for our students. Lake Ainsworth was a hit with the students who enjoyed activities such as Raft Building, Ropes Course, Marine Studies and many more. All our students were impeccably behaved with many people commenting on our good manners and willingness to be part of a team.

At the start of the week we were asked to set a goal for the week and we were then asked at the end of the week if we had achieved our goal or made some personal progress. All our students commented on their personal progress for the week and that they felt they had grown from the experience which is wonderful.

We have the Fishing Competition coming up in two short weeks. Thank you to everyone who is busily working hard to bring our organisation together.

Our rewards excursion is next week, the students have chosen to go to Toowoomba to participate in a gymnastics program and to do some rock climbing. This will be a great addition to our Lake Ainsworth trip.

Coming up next term we have a number of interschool visits with others small schools in our area to participate in workshops, rotations and sports. This is a great opportunity for our students to meet others and share different experiences.

Thank you

Mrs. Jackie Todd
Principal (RI)
